Koliseum Soccer VR ™

THE GAME

It isn't just a game; **it's an experience** designed for engagement, lasting entertainment and **dedicated to the general public** rather than seasoned "Gamers". Easy to play for novices and rewarding for experienced players, it offers gameplay that requires **no prior skill**. Whether for quick games with friends or organized tournaments, every session is a new adventure.

Special **unique features** such as dribbles, lobs and **various bonuses** directly inspired from the arcade world (multi-ball, death-ball, shields, bouncing-ball) significantly change the gameplay and the score of a match. Mastering their tactical dimension can be a real advantage.

With embedded artificial intelligence, the KOLISEUM NOVa VR ™ **can be played by 1, 2, 3 or 4 players**.

DASHBOARD & MENU

Administrator Dashbord

An online dashboard which provides the operator full statistics on usage, players and game settings.

The dashboard communicates with the Koliseum and automatically logs every game. It also allows the operator to choose how the game behave, including choice of teams and/or stadiums available to the player, game time, bonus items, AI difficulty and more.

Streamlined onboarding players menu

The players are greeted with an easy to use and understand series of introductory screens that allow them to set their preferences (depending on the choices of the operator) as well as understand how to play the game. It also makes sure that all players are ready to play before starting the game.
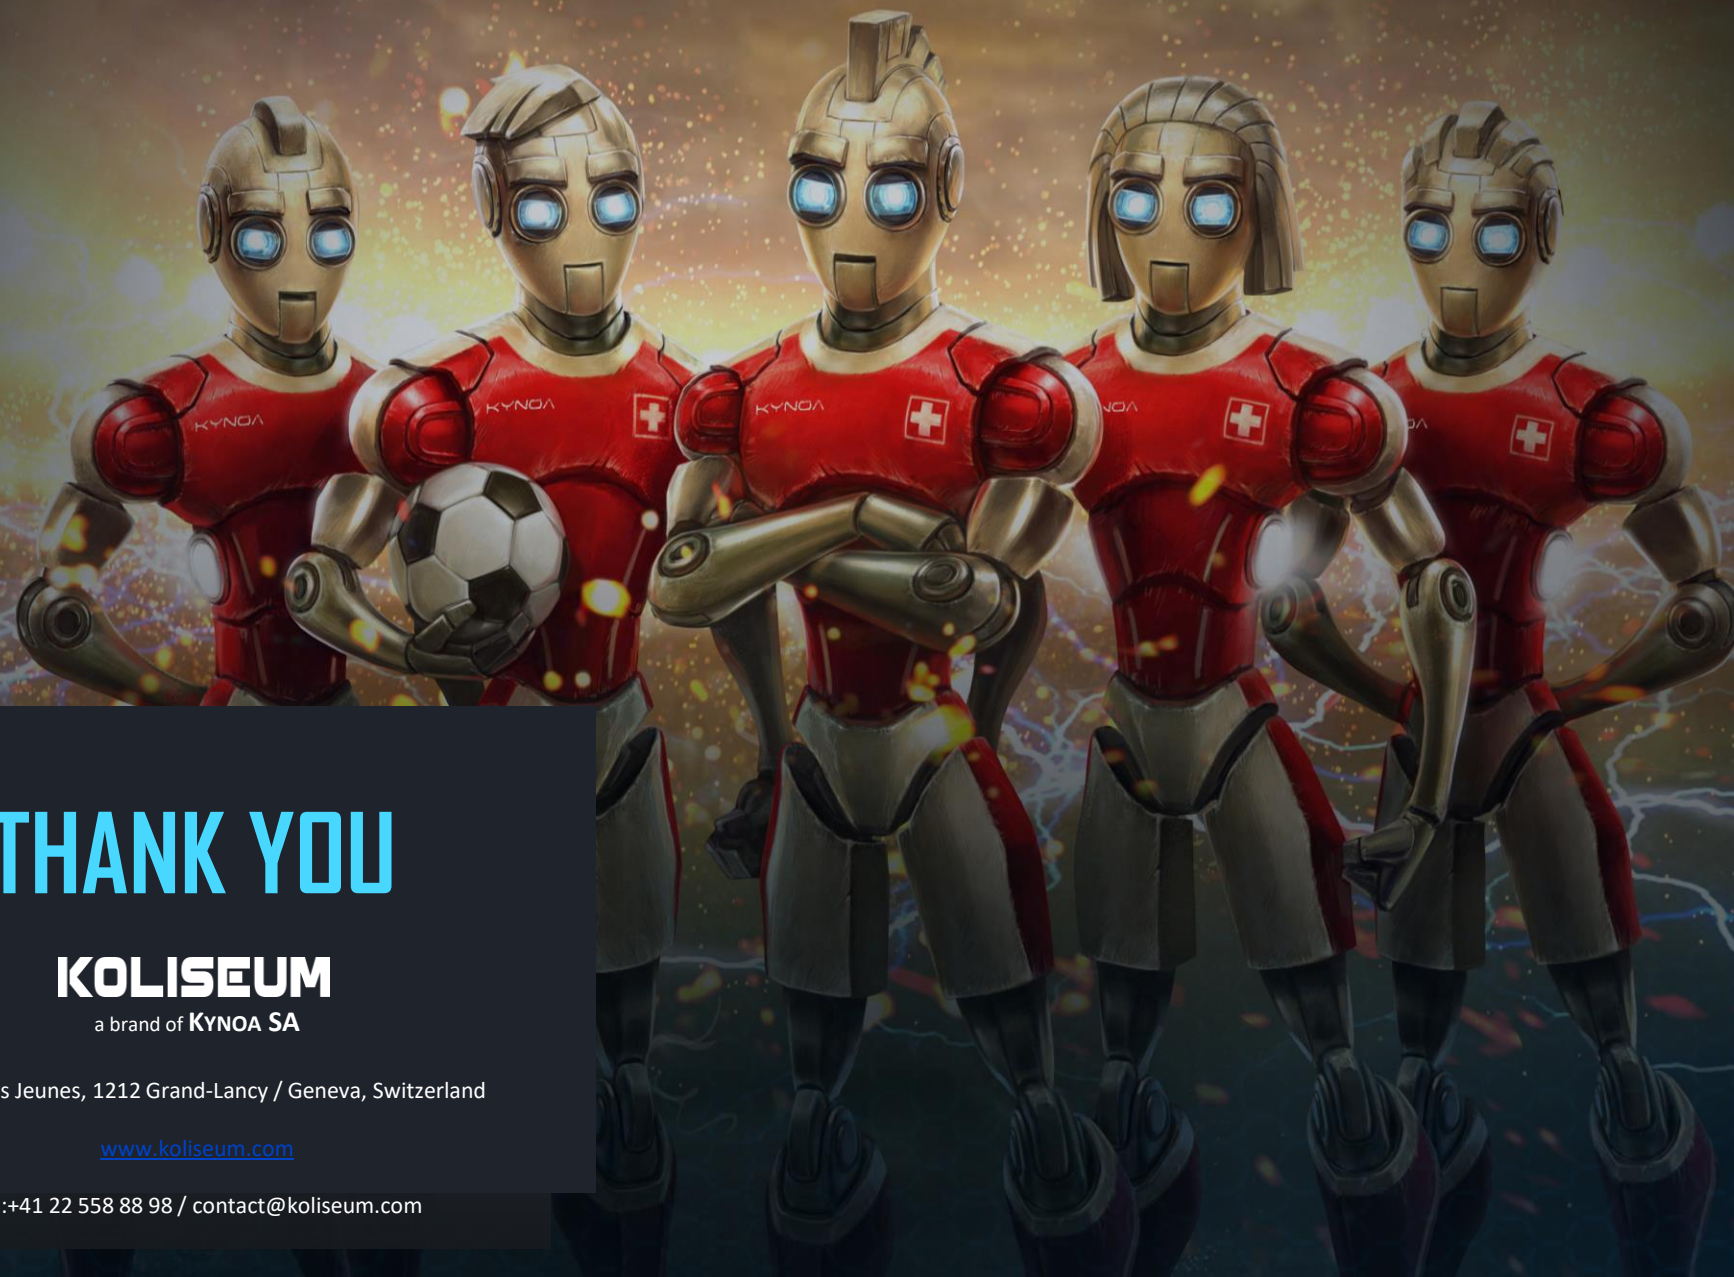

Engagement and Entertainment Guaranteed

KOLISEUM NOVa™ is **ideal for play centers, arcades, and leisure spaces** looking to offer a captivating and socially enriching experience. Its ability to bring people back again and again and attract loyal customers makes it a prime investment for any commercial space.

Immerse yourself in a new dimension of the game with Koliseum Soccer VR™ and experience foosball like never before.

Come and discover this entertainment revolution at Koliseum!
